Who Are You

Ivan & Alyosha

Verse:
Behind those innocent eyes, underneath that smile
Do you tell the truth? Is it one big lie?
I wish you well, but I cannot tell
Well, who are you when no one is around?Verse 2:
And you paint your face, and you change your hand
Tell me what happened to you such a long time ago
And all your friends, well they have no clue
Who are you when no one is around?Chorus:
Who are you when no one is around?
Who are you when no one is around?
No one in this world could bring you down
Who are you when no one is around?Verse 3:
Couldnt love anyone else, til you get over yourself
Youre burning every bridge, youre taking more than you give
You wear your mask, cant forget the past
Well, who are you when no one is around?Chorus 2:
Who are you when no one is around?
Who are you when no one is around?
No one in this world could bring you down
From wherever you are, oh let every man see
Exactly you are, you wont fail to believeBridge:
Let them eat you up and spit you out
If they could see you from the inside out
