

Wish I

Jem

Baby, you're sailing today
Baby, you're sailing away
Sugar, wish I could go too
But honey you know
I'm happy for you Wish I, I wish I, I wish I
Wish I was going too Baby, your ship has come in
Baby, adventures will begin
Sugar, don't you worry 'bout me
'Cause honey you know
Want you to be happy Wish I, I wish I, I wish I
Wish I was going too But if you find that you don't like it
That the people there aren't inviting
Or that city life is too frightening
Won't you come home? But if you find that you don't like it
That the people there aren't inviting
Or that city life is too frightening
Won't you come home? Please come home Wish I, I wish I, I wish I
Wish I was going too
Wish I, I wish I, I wish I
Wish I was going too
