

# Glass Built Castles (Radio Edit)

## Black Peaks

Sitting in this hotel room  
Somewhere just to pass us through  
I thought id seen it all before  
    I saw you on the tv first  
Hanging with your friendsPartners till the end of your crimes  
    I thought id seen you all before  
        Your blinded in the night  
        Your giving up your fight  
            For your life  
        Your blinded in the night  
        Your giving up your fight  
    For your lifeBlackened like the dark night sky  
    Ill wait to see the whites of your eyes  
    I thought id met you all before  
        I saw you on the tv first  
        Hanging with your mates  
            Partners till the end of your lies  
I thought id met you all beforeYour blinded in the night  
    Your giving up your fight  
        For your life  
        Your blinded in the night  
        Your giving up your fight  
            For your life  
        Enjoy your fires  
            Burn  
            Out
