Never Get Caught

American Head Charge

Follow me now and I will drown you
Fill you full of reason
No windows I'll take you
To the dirty place that I love
Slipping on messes
You made when I hit you
Makes me more excitable
I'll never get caught
I'll never get caught
Pull it tight I'll see right through it
I'll never get caught
Cradle the difference in front of your fist
Force it down to bring it back up

And make them listen one more time
Wrapping you up in an American flag
I fuck you for the glory
No complaints from my friends
They keep their fucking mouths shut
I couldn't care less
About the way that you see me
Soothing I will never be
I always get shit
I always get shit
For acknowledging perversity
I'll never get caught
Chorus X2
Never get caught
