

# My Love Goes With You

## Mishka

If there was one song that I could sing  
To help you through each and every day  
I would sing a song to remind you  
That we're only ever living for today My love goes with you, yeah  
In all that you do  
My love goes with you, yeah  
In all decisions that you make Well, sometimes we get so tired of the struggle  
When it seems as if there's no way out  
Mmm, so caught up in desire, it's so hot  
There in the fire and you're lost in doubt My love goes with you, yeah  
(My love, my love, my love, my love, my love)  
In all that you do  
My love goes with you, yeah  
(My love, my love, my love, my love, my love)  
In all decisions that you make In every book you readin'  
And in every glass of water you're drinkin'  
In every breath you're breathin'  
And in every little thought that you're thinkin' I hope that you can find  
A little free time for yourself  
Yeah, I hope that you can find  
A little music after your own heart 'Cause my love goes with you, yeah  
In all that you do, umm I hope that you can find your balance  
Between the mystic and mundane  
I hope that you can navigate your way  
Between the sacred and profane Yes, I hope that you can find your vision  
Between the sunshine and the rain  
That you find your truth within and when you do  
It doesn't cause you too much pain 'Cause my love goes with you, yeah  
(My love, my love, my love, my love, my love)  
My love goes with you, yeah  
(My love, my love, my love, my love, my love) Yeah, my love goes with you  
(My love, my love, my love, my love, my love)  
My love goes with you  
(My love, my love, my love, my love, my love) Yeah, you know I get so concerned  
And I wonder how you're gonna make it  
If I can't be there for you all the time  
How you gonna take it But then I don't worry, no  
'Cause my love is strong  
Then I don't worry, no, no, no

My love for you lives on and on and on Yeah, my love goes with you, yeah  
In all that you do  
My love goes with you, yeah  
In all decisions that you make My love goes with you  
(My love, my love, my love, my love, my love)  
Everywhere you go  
My love goes with you  
(My love, my love, my love, my love, my love) My love goes with you, yeah  
(My love, my love, my love, my love, my love)  
Ooh, yeah
