When She Comes

Injected

When she comes in all degrees, no more need
Burn the taste of all away, you can't say
Try to kick a line in time, no more time
Burn the taste down on your knees, you can't seeWhat I want, I can't sayBreaking glass will do you harm, my blood's warm
Somehow words are meaningless, I'm breathless
Try to put your arms around what you've found
Disappears and all is gone, you can't go onWhat I want, I can't say
