

Kissing My Love

Bill Withers

When Im kissing my love
I can hear a thump thumping in my head
When Im kissing my love
I close my eyes and see a pretty city
With a million flower beds I can hear the angels sing
Songs that only angels sing
And I can feel my heart
Just a-thumping and a-skipping
When Im kissing my love When Im kissing my love
I feel the blood pump-pumping in my veins
When Im kissing my love
Shes such a tender send
With a sweet young frame Shes so good at what she does
All she wants to do is kiss and hug
Shes got me in love
And I can feel my heart
Just a-thumping and a skipping
When Im kissing my love
