

Breakin' Up Thing

[Terri Clark](#)

Coffee's still warm in the cup
On your side of the bed
My head's still ringin'
From everythin' that you said I believed that you were mine
Fell hard for every line
That was way too smooth
It can't be your first time You got that breakin' up thing down
Know how to leave without a sound
I could learn a thing or two watchin' you
Got that breakin' up thing down You're phone keeps hummin'
I'm wonderin' who could it be
Text messages comin'
None of them from me
You make misery an art
No respect for the human heart
Take a bow you sure know
How to play the part You got that breakin' up thing down
Know how to leave without a sound
I could learn a thing or two watchin' you
Got that breakin' up thing down You're gonna know
What lonely means one day
When someone you love
Just walks away You got that breakin' up thing down
Know how to leave without a sound
I could learn a thing or two watchin' you
Got that breakin' up thing down
I'm just a diamond in your crown
I could learn a thing or two watchin' you
Got that breakin' up thing down
I could learn a thing or two and honey
You got that breakin' up thing down
