

Love's No Friend (Live in Chicago)

Rainbow

Well I don't need much
But I need a friend
Heartache you've got time for me
Ain't no trouble with you're always down
To find a friend in misery But that's alright
That's alright
Ain't gonna fall for the line That's alright
That's alright
Don't need no sun to shine
When love's no friend of mine I've been so down I've been on my knees
Just don't seem to feel no pain
Natural loser I've been on the run
Got no shelter from the rain That's alright
That's alright
Ain't gonna fall for no lies That's alright
That's alright
Don't need no sun to shine
No cause love's no friend of mine Learn to live with a cloud above my head
Got no shame, got no pride
If you need affection
Don't knock on my door
Got no feelings left inside But that's alright
Yes, That's alright
Ain't gonna fall for no lies That's alright
That's alright
Don't need no sun to shine
Cause love's no friend
Cause love's no friend
Ah no friend of mine
Love's no friend of mine
