Million Eyes

The Coral

Our eyes are shining like the stars
Vibrations falling into grain
We're a million eyes away
We're a million eyes awayWe're never coming home
Out here we ride alone
Cause we're a million eyes awayWe are the patterns in the sky
We split the light inside the rain
We're a million eyes away
We're a million eyes awayBalanced on the wire
Shadows dancing into fire
Cause we're a million eyes away
...
Our eyes are shining like the stars
Vibrations falling into grain
We're a million eyes away
We're a million eyes away
