

High Above

[Lucy Schwartz](#)

Sitting watching the waves roll back and forth
And everything is beautiful, for a moment
Sitting watching the clouds as they touch my nose
And everything's unnatural, for a moment
High above,
Too far away to hear me crying
If I forget this love
I don't have to think of why I'm dying
Lying down watching T.V. I get so numb
From all those stupid shows that just seem to wear me down
Listening to the droning beats of the radio
My mind has drifted somewhere else, I don't even know
High above,
Too far away to hear me crying
If I forget this love
I don't have to think of why I'm dying
You know I'm dying too
You know I'm dying too
You see I made a chain reaction, yeah
Of multiple distractions
You see I made a chain reaction, yeah
High above,
Too far away to hear me crying
If I forget this love
I don't have to think of why I'm dying
