

Make You Mine

Crossin Dixon

You caught me lookin' at you
Tryin' hard not to show it
Tryin' hard to control it
Hopin' you wouldn't see Yeah, but no one could blame me
You're so one of a kind
Walked right out of a scene in my dreams
I'd love to make you mine And not a day go by, I wouldn't kiss you
Not a minute apart, I wouldn't miss you
There'd never be a time
When I wouldn't let you shine And if you doubt my love
I'll be there to show you, if your skies go gray
I'll be there to hold you tight
I'd love to make you mine Baby, I'll be the one
You thought never existed
The shinin' light in this twisted world
That won't ever burn out I'll never leave you guessin'
Look right here in my eyes
I'll never try to deny it
I'd love to make you mine And not a day go by, I wouldn't kiss you
Not a minute apart, I wouldn't miss you
There'd never be a time
When I wouldn't let you shine And if you doubt my love
I'll be there to show you, if your skies go gray
I'll be there to hold you tight
I'd love to make you mine I'd love to walk up and tell you
Reach my hand out and take you And not a day go by, I wouldn't kiss you
Not a minute apart, I wouldn't miss you
There'd never be a time
When I wouldn't let you shine And if you doubt my love
I'll be there to show you, if your sky goes gray
I'll be there to hold you tight
I'd love to make you mine
I'd love to make you mine
I'd love to make you mine
