

Wildflower

Cee Lo Green

All it takes is the moonlight
And as long as the weathers fair
Reacts through a river
Romance by the evening airA fragrance on the flesh
This is who she is, don't apologize
You are to awe her
But you'll only have be beautiful in the beholder's eyeWonderful wildflower
Open up, let me see
Ooh, sexy hints in seasons
Share your sunshine with meOh, the picture is perfect
A keepsake 'cause the occasion's rare
It's a poetry in motion
I'm just proud to say that I was thereTo pull her out of the ground
Standing out in the crowd, oh my, how she's grown
Hold her with both my hands
And put her right on the table when I get her homeWonderful wildflower
Open up, let me see
Ooh, sexy hints in seasons
Share your sunshine with meShow those pretty colors, baby
Show them all to everyone
Everybody's got a
Little light under the sunWonderful wildflower
Open up, let me see
Ooh, sexy hints in seasons
Share your sunshine with meWonderful wildflower
Open up, let me see
Ooh, sexy hints in seasons
Share your sunshine with me
