Are You Sure You Can Last?Verse 1The moment of truth is upon us

Are you ready for the climb that lies ahead?

Does the passion burn in your heart?

Is your mind starting to understand?This challenge that's thrown upon us

We need to struggle to learn to survive

Only once in a lifetime you feel it

This must be our time to thriveChorus 1Do you know how long you can take it?

Are you willing to take the chance?

Do you know if you really believe it?

Are you sure you can last??Verse 2As the night settles down upon us

The moon shining bright tonight

You look up to heaven for guidance

And ask yourself if the timing's rightCan you believe for one second that you've made it?

Are you sure you can play their game?

You answer your critics with a question

You're not sure you'll ever be the sameChorus 2Do you know how long you can take it?

Are you willing to take the chance?

Do you know if you really believe it?

Are you sure you can last??
