

I Cry

Rotersand

me and you standing eye to eye
i read your face, i've known you for so long
torn in two and i don't know why
what was right somehow now is wrongi say hey my friend
don't let it end
we've got to try, try while we still cani say hey my friend
i don't know when
but there's a time our sun will rise againwhat we did, what we said
what we missd and what we had
i cry icry over you
