Keep You Right

Blind Pilot

The stars wash over me, so far away that I can barely breathe, from where I lay
Never have I been so far from home o?er the years I was cut from sound and rain
I?m calling through ebb and flow; I?m calling whichever way it goes
Desert rock and rose in road dairy dry blood this on the breeze, make me new
Lower through my face and then go between the bones that shake and knock me through and through
I?ve been away so long and lost you my love the song inside
You give me anything you want to I?m bound to keep you right
Ooohhh to keep you right

The heart longs for too much, mine eyes have hardly seen enough to know it?s me
Never does it stop or slow I press my ear against the ground to know the song it sings
I?m calling, fear running through; I?m calling what more can I do
Tell me what more can I do
I?ve been away so long and lost you my love, the song inside
You give me anything you want to now I?m bound to keep you right
You give me anything you want to now I?m bound to keep you right
Oh to keep you right
