Sign of Life

Nural

A candle lights my way
As I search for more than a common face
But slowly my hope fades
Along with this dyin' flameFor all I know we've only just begun
But where do we begin?
'Cause I find you here left for dead
So could you show a sign of life?
A sign of lifeShow a sign of life
'Cause I won't carry your dead weight alone
Despite the light deprived
I carry on into the unknownFor all I know we've only just begun
But where do we begin?
'Cause I find you here left for dead
So could you show a sign of life?For all I know we have only just begun
I dont even know where to begin (where do we begin?)
I find you here battered and just left for dead
Could you show a sign of life?For all I know (for all I know) we have only just begun
I dont even know where to begin (where do we begin?)
I find you here (find you here) battered and just left for dead
Could you show a sign of life?Take this song of love
Disfigure it in any way you can
While you have your chance,
'Cause I'll never sing of love again, again
