Let It Go

Etro Anime

I gave to you more than I owned
And my share was still unknown
I don't want to replay the show
Wanna let it goYou know that our love's been dying
We can't talk though we keep trying
But as long as the love is strong
Let it go
Just let it goIntegrity
Identity and
All the ghosts inside of me
Tell me there's so much I still don't knowIf today you were almost dying
Well tomorrow you might be flying
We sure got a ways to go
Let it go
Gotta let itWe finally reached the day
The ties start to break away
I lied to your face I know
I'll never let him goDon't hang ideals on me
I don't need to know how good it could be
I just want to try and stand-alone
I wanna let it go
I wanna let it goIf today you were almost dying
Girl tomorrow you might be flying
So many ways to go
Gotta let it go
