

# Stay Away

## Falling In Reverse

I've watched my life flash right before my eyes just one too many times  
I've graced the devil's lips, her kiss of death but somehow I'm alive  
I take another pill so I won't feel the pain  
This mess I made, I celebrated on the day  
I'm dying, can't get away  
Show me the truth, I'm sick of the lies  
Why must we pretend?  
I'm repeating this over and over again[Chorus:]  
Stay away, this is your last warning  
I am not the same  
Please do not adore me  
It's not your fault, what have I done?  
Who can I trust?  
I don't belong here  
I'm dying  
I lost my fate again  
Stay away from me I've had this mindset that it's me against the world since I was born  
Don't want your company, don't fuck with me, can't say I did not warn  
I've got my back on the wall, there ain't no person to call  
And get back up again  
The only thing that I know, I do it on my own  
That's always, how it's always been[Chorus]Stay, stay, stay away  
This is true, I'm telling you  
Stay, stay, stay away  
Don't misconstrue, I'm warning you[Chorus]
