

Skeptic

Slipknot

I only want our fate, commit the rape
Do we get a little taste? That's unique
They love my taint, know what I made
Himâ€™achievement on a Sunday
You where the gift, you where a gib
But there's a way, it's the god damned dead
Nothing and a curse, you made it work
The universe is so much smallerVengeance, bastards, different, why?
Why do the living decreed?
And our hero, martyr, missionary
Godâ€™he was the best of usThe world will never see another crazy motherfucker like you
The world will never know another man as amazing as youNever be the same, I want the blame
To be a sign of the guiltiest one
It can't be done, because the son
Was a victim of your best sin
I'm so fucking pissed at all of this
You gotta know that you are sorely missed
Eight becomes a wheel, they hope you heal
They make you feel like they broke it betterFather, brother, scapegoat, why?
Why did we only get this day?
Fighter, icon, chanting
Godâ€™stop taking the best of usI won't let you disappear
I will keep your soul alive if I can't have you here
History may have its share
Of lunatics and stars
But the world will never see another crazy motherfucker like you
The world will never know another man as amazing as you
The world will never see another crazy motherfucker like you
The world will never know another man as amazing as youSkeptic, skeptic, skeptic, skeptic, skeptic,
skepticWhere am I supposed to begin?
I'm killing for this god while I'm dead
Feed the meat to ripping machine
Where living is a way to be saneGodâ€™are we alone?
Godâ€™we're not aloneI can't let you disappear
I will keep your soul alive if I can't have you heal
We were meant to be the gates
Rule the masses, run the risk
And keep our systems clean
It's your remake, heaven's shroud

For lunatics that starve
But the world will never see another crazy motherfucker like you
The world will never know another man as amazing as you
The world will never see another crazy motherfucker like you
The world will never know another man as amazing as youThe world will never see (will never see)
Another crazy motherfucker like you (like you)
Like you (like you)
Like you
