Way home

Christian Falk

Caught up in the history, I wish it was new to me
But a shadow behind me reminds me of where I used to be
So I keep on running, I keep looking for something, ohh
Like something that I lost in a dream where I couldn't see
And I opened my eyes and now I'm on the road
And for the first time I see what I'm shown
I've found a way home, home
What I was believing, yeah, it was something deceiving
But the time to move on came along to wake me from my dreaming
And with everything that you told me, ohh, the truth is unfolding, yeah
And this road that I'm on, yeah, I've found it belongs to me
And I opened my eyes and now I'm on the road

And for the first time I see what I'm shown
And it's coming alive and into its own
Ohh, for the first time I feel right, I have found a way home
Home, somethings changed, I don't feel the way I did before
Ohh, any day could be the one that's different from before
Yeah, I'm sure, now, I'm sure
And I opened my eyes and now I'm on the road
And for the first time I see what I'm shown
And it's coming alive and into its own
Ohh, for the first time I feel that I have found a way home
A way home, a way home
