

# As Soon As You Let Me

## Modern Day Zero

Looking at your face it's turning to something  
I'm thinking of a place  
I want you to take me  
I'm on the inside and you can't hide  
I want you to feel this  
Brush the hair back from your eyes and lay with me a while[CHORUS]  
I want to come  
I want to come  
As soon as you let me I want to come  
I want to come  
As soon as you let me Don't make me wait another second baby  
Cause I want to come  
I want to come  
As soon as you let me Whisper in your ear  
I'm thinking of one thing  
The pressing skin on skin  
And I'm sinking in slowly All I have to say is  
I love it when you thinking of me  
All I have to say is  
I love it when you scream my name[CHORUS] I want to come  
I want to come I want to come  
I want to come I want to come  
I want to come I want to come  
I want to come  
As soon as you let me[CHORUS] I love it when you're screaming my name  
I love it when you're thinking of me I love it when you're screaming my name
