Intuition

Lemur Voice

Gusts of color, senses of energy enter the realm of intuition.
The question of validity is rhetorical in presence of Nature?s purity
A child?s honesty, strength through vulnerability.

Yet feel the overwhelming beauty of intuition
By concentrating on positive energy flows
That emerge in your aura
Stop confining yourself, open up
Stop confining yourself, open up

True appreciation of faith, openness without fear
Devotion from the heart and crystal clear consciousness.

Yet feel the overwhelming beauty of intuition
By concentrating on positive energy flows
That emerge in your aura
Stop confining yourself, open up
Stop confining yourself, open up

Dimensions order increases infinity
Unbelief finds its roots in narrow-minded crowds
The blind who deny the possibility of sight
The deaf who can't find empirical proof
For the existence of sound

Yet feel the overwhelming beauty of intuition
By concentrating on positive energy flows
That emerge in your aura
Stop confining yourself, open up
Stop confining yourself, open up
