These 3 Words

Elise Estrada

Me, you all we gotta do is have a little, have a little
Me, you all we gotta do is have little, have a littleDon't let one bad apple spoil what we got 'cause you know
That she did you wrong, she's been around the block
But that ain't me, don't paint me, baby, with the same ol' brush
If you just take a leap of faith, it's all matter of trustThese three words, one, four, three, tell you what you mean to me
These three words, have you heard that you're my everything
'Cause there's no one else who rocks my world
You know I'll always be your girl
These three words, one, four, three, tell you what you mean to meAh, don't be feel so goodOne bite, two time's shy, she took you for a ride
She burned you and you learn to believe that love's a lie
If you doubt, you don't know me, baby, nothing to do with us
If you just take a leap of faith, it's all matter of trustThese, three, words, one, four, three, tell you what you mean to me
These three, words, have you heard that you're my everything
'Cause there's no one else who rocks my world
You know I'll always be your girl
These three words, one, four, three, tell you what you mean to meMe, you all we gotta do is have a little have a little
Me, you all we gotta do is have a little have a littleIf you doubt, you don't know me, baby, nothing to do with us
If you just take a leap of faith, it's all matter of trustThese three words, one, four, three, tell you what you mean to me
These three words, have you heard that you're my everything
'Cause there's no one else who rocks my world
You know I'll always be your girl
These three words, one, four, three, tell you what you mean to meThese three words, have you heard that you're my everything
'Cause there's no one else who rocks my world
You know I'll always be your girl
These three words, one, four, three, tell you what you mean to me
