Careless

Rexxy

It's all I want to do
I just want to stay with you
I just want to talk to youIt's all I want to say
I just want to be right here
I just want to be so nearIt's all I want to say
I don't want to know your fears
I just want to be right here
It's all I want to doAnd I dream you right beside me now
I want those days, right nowAnd we're talking like we used to do
I don't know if I can take it anymoreAnd it happened so fast i'm falling
now i'm calling you right now
