

Love Like You Loved

[Jonny Diaz](#)

Help me to love like You loved
Serve like You served
To speak only words of truth
Help me to care like You cared
For a world in despair
Help me to love like You

What Iâ€™d give for a change
How long will it be this way

This complacency is wearing on me
All my passions turned to apathy
I could get up and follow You
And find my faith from before
Donâ€™t know what Iâ€™m waiting for

I have done what I thought I should
All these years that Iâ€™ve spent serving You
Tell me how did I end up like this
With doubt in my heart and my hands in a fist

Maybe You shining white or a blood red sun
Maybe some other sign that may never come
Maybe I must believe before I can see
What Iâ€™m waiting for
