I Live It

Agnostic Front

Fuck you and everything that you've ever said about me
I despise you and I'll never show you mercy
This is my life, my oath and sincerity
I live it and I have no time for fantasiesI don't talk about it, I live it
This is my reality, I live itFuck you and everything that you say and you're about
I live your life, I hold no regrets 'cause you fear mine
I walk the walk, all you ever do is talk
And I'm tired of your bitching and cheap insultsYou may take me out of the streets
But you'll never take the streets out of me
