Crack Rock Steady

Choking Victim

Advisory - the following lyrics contain explicit language:

Crack rock steady, are you ready to stop
The rotten blue menace? Let's go kill us a cop
Crack rock steady, are you ready?
Living above the lawPo' little lice, the po' little screws
The whitest gang crew, the hated boys in blue
Like scabei on the street, they infest the beat
Fucking my life but I won't admit defeat to themAbove the law, above the law come now
No copper will be safe till they are dead and done now
Let's lay 'em down low, let's hang 'em up high
Let's take all of these piggies, and have them crucifiedCrack rock steady, are you ready to stop
The rotten blue menace? Let's go kill us a cop
Crack rock steady, are you ready?
Living above the lawHardcore, rugged and raw
On the streets of New York, we live above the fucking law
It don't matter the color of your skin
As long as you not scandalous, commit no sin to me or my tribeWould not be wise
Time to smell the ganja, open up your fucking eyes
Step back, keep your attitude in check
And give the crack rock steady much respectCrack rock steady, are you ready to stop
The rotten blue menace? Let's go kill us a cop
Crack rock steady, are you ready?
Living above the lawDon't ya know that Satan is the man?
So listen very close because we got a little plan
We're gonna have to execute some rich important people
Gonna burn down all the churches and topple all the steeplesSee a frown, turn that cross upside down
Grab a gun or baseball bat, let's go to fuckin' town
Let's kill the police, I'll be saying little more
But when the cops come to your door, don't forget the choice is yoursCrack rock steady, are you ready to stop
The rotten blue menace? Let's go kill us a cop
Crack rock steady, are you ready?
Living above the lawRiot sound, police come round
With the bass and drum we knock 'em down

Chop 'em up with the riffs an' in the stew in it
Drinkin' pot liquor made of poison glue, pick it upSomeone way up livin' in those high-rise castles
Wishing with the hope that I lick their assholes
With the beat we burn down those big brass doors
Here we go, rocksteadyCrack rock steady, are you ready to stop
The rotten blue menace? Let's go kill us a cop
Crack rock steady, are you ready?
Living above the lawCrack rock steady, are you ready to stop
The rotten blue menace? Let's go kill us a cop
Crack rock steady, are you ready?
Just now stopCrack rock steady, are you ready to stop
The rotten blue menace? Let's go kill us a cop
Crack rock steady, are you ready?
Just now stopCrack rock steady, are you ready to stop
The rotten blue menace? Let's go kill us a cop
Crack rock steady, are you ready?
Just now stopCrack rock steady
