

# What's On Your Mind

David Mead

We'll go out tonight, if it makes you feel better  
But something is not right, so as long as we're together  
Shoot straight, say what you mean  
And don't delay I need every word I already know about the change in the weather  
I already heard about the popular lies  
Only you know whatever you're showing  
Tell me what's on your mind I see it in your eyes, those pretty pictures cold and silent  
But what a waste of lies, I could have stayed at home, dying  
There you go, sigh it away, but  
Dare you don't, I need every word I already know about the change in the weather  
I already read the early New York Times  
Only you know whatever you're showing  
Tell me what's on your mind Tell me what's on your mind  
Tell me what's on your mind I already know about the change in the weather  
I already heard about the popular lies  
Only you know whatever you're showing  
Tell me what's on your mind Yeah, tell me what's on your mind
