Battle Hymn

Judas Priest

Alright baby. You know how to have a good time don't cha
It's the way you stand
You're always attracting attentionNow with your hands on your hips, and a
Snarl on your lips
Your eyes wore the look of danger
There's a lion in your heart,That's set to quick start,
To a glance from any stranger
You give as good as you get
No one's beat you yet
You take the lead
You never need
You know all the moves you've got to makeYou take it all, you take it all the way
Ya never do things by half
You're a man with a reputation
You never shy when the problems fly
You can cope with any situation
You take the wheel and crack the whip
You never slip
You rule the roost
You always boast
Yeah you're lookin' after number one
