

Take a Chance

[tyDi](#)

Watching all the constellations form overhead
Through the trees a full moon rises
And lights my path
And now I'm wakin' up on my feet
Got to be near you
I'm running barefoot down the street
You've got me acting crazier
I won't attest
Caught in the moment caught by lights
I wanna dance
Am I crazy
Am I crazy in love?
Rain is running down the window of this cafe
Outside you check your reflection
And walk away...
