

# Electric Lady

Elkie Brooks

He went into the town to see the movie  
He couldn't get in for the people crowding 'round  
He called her on the phone  
She said she wanted to be alone  
Please would he be there when she got home  
It's hard to be the man she wants him to be  
I know she needs her space  
He said it's fine  
(Oh, he loves it when she smiles)  
If only for a little while  
I wish that she could read between the lines  
(She's a talk about it, walk about it)  
(Electrifying, mystifying lady)  
Electric lady  
(She's a talk about it, walk about it)  
(Mesmerising, hypnotising lady)  
Electric lady  
(She's a talk about it, walk about it)  
(No denying she's a little lady)  
He wants to tell her but she won't give him time  
He's like to make for them together  
She wouldn't have to work and please herself  
Oh, he loves it when she smiles  
If only for a little while  
If only she could read between the lines  
(She's a talk about it, walk about it)  
(Electrifying, mystifying lady)  
Electric lady  
(She's a talk about it, walk about it)  
(Mesmerising, hypnotising lady)  
Electric lady  
(She's a talk about it, walk about it)  
(No denying she's a little lady)  
He wants to tell her but she won't give him time  
She's a talk about it, walk about it  
Electrifying, mystifying lady  
She's a talk about it, walk about it  
Mesmerising, hypnotising lady  
She's a talk about it, walk about it  
No denying she's a little lady  
And he wants to tell her but she won't give him time  
(She's a talk about it, walk about it)  
Talk about it

(Electrifying, mystifying lady)

Electric lady

(She's a talk about it, walk about it)

(Mesmerising, hypnotising lady)
