Morning Ride

Fiji

Whoa now now now now
Come mere closer den
Whoa now now now now
Come mere closer den
Whoa now now now now
Come mere closer den

Enter me gates round 9
Girl u lookin pretty and you know you're so fine
What you're doing to me is just like fine wine
Getting much sweeter as we pass by the time
Oh no catch me when me lookin in me bedroom eyes
And you want fa slowly rub me pon me thighs oh

Give me da ride
Give me da morning ride
Any ting you want fa do I will abide
All your secrets I will confine
Only you and me will know da time
Come, me love da way you touch and caress
It?s a shame for me fa unbutton your dress

Give me da ride
Give me da morning ride
Any ting you want fa do I will abide
All your secrets I will confine
Only you and me will know da time
Come, me love da way you touch and caress
It?s a shame for me fa unbutton your dress

Come me say enter into me bedroom gates (shut the door)
It?s been too long me just can't wait (too explore)
And me say makin good love is like a trait
You either have it or you're just another mate
Come, me see ya passion burnin up like da flame
And me feel like an animal you want fa tame oh

Give me da ride
Give me da morning ride
Any ting you want fa do I will abide

All your secrets I will confine
Only you and me will know da time
Come, me love da way you touch and caress
It?s a shame for me fa unbutton your dress

Give me da ride
Give me da morning ride
Any ting you want fa do I will abide
All your secrets I will confine
Only you and me will know da time
Come, me love da way you touch and caress
It?s a shame for me fa unbutton your dress

Ya body heat up when we movin in a slow motion
Squeezin me so tight like we rockin da ocean
See it in your face you giving me devotion
Makin love so long we change up da trojan
Sweating to da sweet music and da rum
Feels so nice to have so much fun
Come on

Give me da ride
Give me da morning ride
Any ting you want fa do I will abide
All your secrets I will confine
Only you and me will know da time
Come, me love da way you touch and caress
It?s a shame for me fa unbutton your dress
(Repeat)
