

# Bonita And Bill Butler

## Alison Krauss & Union Station

I grew up in the scantling yards of Wheeling, West Virginia  
A wheelhouse cub looking for an open door  
In the packet ways a Sweeney wed the keel of my Bonita  
Just two months from her timbers 'til she moored  
I paid the fare in billet on her maiden voyage to Vicksburg  
And talked my way to hand the tiller on the course  
In her planks I carved a notch and sealed the vow 'Be my Bonita'  
And her dowry was my life between the shoresI was born with rouging ways, and she steered me like a woman  
From the port calls and the bawds that lead me stray  
The calliope serenades, made the old towns come running  
And the boys would gamble shards to pull her chains  
The striker's boast would fain me loss, about the wrecks the shoals were keeping  
And how the old girl's got poor Billy's ransom savedOn the lake at Bistineau, she set the wharf at Dixie  
With a thousand bales of cotton on her main  
As the great raft disappeared, the watermark went sinking  
And she was stuck right hard, a listing on the bank  
With the furnace still a blaze, I stood my last upon her  
Then climbed the prow and took a landsman's trade  
'A derelict now Milady' said the watch log I've concorded  
'Have the bosun sound us eight bells for the change'Cause I was born with rouging ways, and she steered me  
like a woman  
From the port calls and the bawds that lead me stray  
The calliope serenades, made the old towns come running  
And the boys would gamble shards to pull her chains  
And I would take to wider walks, so the gin I stopped a drinking  
At three scores aloft this crooked frame  
The striker's boast would fain me loss, about the wrecks the shoals were keeping  
And how the old girl's got poor Billy's ransom saved
