

# Let's Work It Out

## Texas

Take what you need now you're through  
It's up to me, not to you  
Now I'm asking you to leave  
I can hardly breathe Go away, go away  
It's a mad day  
I jumped on board  
I wasn't thinking about anything You know we've gotta work it out  
Life's too short, let's work it out  
You know we've gotta work it out  
Life's too short, let's work it out  
There is no way I can compare  
To this love affair  
I know this is the last time  
Cause you will never be mine Go away, go away  
It's a mad day  
I jumped on board  
I wasn't thinking about anything You know we've gotta work it out  
Life's too short, let's work it out  
You know we've gotta work it out  
Life's too short, let's work it out Oh My God  
I'm not worthy anymore  
Now this is our time  
I changed my mind  
You know we've gotta work it out  
Life's too short, let's work it out  
You know we've gotta work it out  
Life's too short, let's work it out  
You know we've gotta work it out  
Life's too short, let's work it out  
You know we've gotta work it out  
Life's too short, let's work it out
