

# Leave Your Love

**Tyler Carter**

Take all your feelings  
The way that you feel won't keep you warm  
Your pain and beliefs, stories and needs  
You got everything, all you ever wanted and more here  
Leave your love at the front door  
Leave your love at the door, leave your heart on the floor  
(wanna put it down til the sun comes up)  
And if you leave your heart on the floor, leave your tears let em' pour  
(give it, give it up)  
Leave your love at the door, your love at the door  
(wanna put it down til the stars come up)

Take all your mistakes  
Break all the promises you made girl  
Your secrets won't keep you safe  
Take your pride and your shame, your plans to escape  
Cause baby when i get down with it, you'll never ever be the same

Leave your love at the front door  
Leave your love at the door, leave your heart on the floor  
(wanna put it down til the sun comes up)  
And if you leave your heart on the floor, leave your tears let em' pour  
(give it, give it up)  
Leave your love at the door, your love at the door  
(wanna put it down til the stars come up)
