

Still Dirrty

Christina Aguilera

Yeah, yeah, ohh, ohh If you see me walking down the street
Or in the pages of your magazine
Looking just a little differently
Showing off a softer side of me They say I'm lookin' like a lady
They say that love is gonna change me
But don't be fooled by everything you see
I gotta let the naughty in me free, yeah There's a woman inside of all of us
Who never quite seems to get enough
Tryin' to play by the rules is rough
'Coz sooner or later something's gonna erupt 'Coz I still got the nasty in me
Still got that dirrty degree
And if you want some more sexy
Still got that freak in me I still got the nasty in me
Still got that dirrty degree
And if you want some more sexy
Still got that freak in me No matter what you're thinking of me, still dirrty
And if you're still rollin' with me, still got it
No matter what you're thinking of me, still dirrty
Still got that freak in me Why is a woman's sexuality
Always under so much scrutiny?
Why can't she do exactly as she please
Without being called a million things? You say you're not the girl I used to know
'Coz I don't always wear revealing clothes
But don't be fooled, the moment I get home
I'm letting loose but in a private show Now don't you know
There's some women out there who talk and stare
Who never seem to let down their hair
Like to pass judgment but they're just scared
And don't know what they're missing so they better beware 'Coz I still got the nasty in me
Still got that dirrty degree
And if you want some more sexy
Still got that freak in me I still got the nasty in me
Still got that dirrty degree
And if you want some more sexy
Still got that freak in me No matter what you're thinking of me, still dirrty
And if you're still rolling with me, still got it
No matter what you're thinking of me, still dirrty
Still got that freak in me Don't tell me to behave
'Coz I'll never play that game

Don't tell me what to do
'Coz I'll never be uptight like youDon't look at me that way
'Coz I ain't never gonna change
And if you're talking 'bout my life
You're only wasting your own timeIf I wanna wear lingerie outside of my clothes
If I wanna be erotic in my own videos
If I wanna be provocative, well, that ain't a sin
Maybe you're not comfortable in your own skinI still got the nasty in me
Still gots that dirrty degree
And if you want some more sexy
Still got that freak in meI still got the nasty in me
Still got that dirrty degree
And if you want some more sexy
Still got that freak in meOoh, yeah, hey hey, ohh
