

# Ready, Set, Go!

## The Summer Set

We were running through the town  
Our senses have been drowned  
No place we haven't been before  
We learn to live and then  
Our freedom came to an end  
We have to break down this wall  
Too young to live a lie  
Look into my eyes  
Ready, set, go, it's time to run  
The sky is changing, we are one  
Together we can make it while the world is crashing down  
Don't you turn around  
We are looking back again  
All loneliness and pain  
Never been so wide awake  
Breathe slowly in and out  
Somewhere behind the clouds  
I can see the morning break  
Too young to live a lie  
Look into my eyes  
Ready, set, go, it's time to run  
The sky is changing, we are one  
Together we can make it while the world is crashing down  
Don't you turn around  
Leave it all behind you now  
The final wall is breaking down  
We are what it's all about  
Nothing can stop us now  
I promise you right now  
I'd never let you down  
Ready, set, go, it's time to run  
The sky is changing, we are one  
Together we can make it while the world is crashing down  
Don't turn around  
Ready, set, go, it's time to run  
The sky is changing, we are one  
Together we can make it while the world is crashing down  
Don't you turn around  
Don't you turn around

Don't you turn around
