

The Strength of Misery

Carnal Forge

Turn away from grimness
Turn away from your desires
Get him locked up
They ate him, ate him up.
No one at the scene transposes
Reversed transpossession
Kill the newborn child of Christ
Put and end to all the lies
Demonic possession
Transfer the spirits
The obscure rituals continue
Look for someone weak
Got the keys to unlock hell
Your secret dies with me
Shoot me, stuff me, nail me to the wall
Demonic possession
Transfer the spirits
The obscure rituals continue
Evil prevails
I'm taking over
Put the evil in the sacred circle
And the power will be mine
You're just resting
Go knock 'em down.
Saving lives
It's getting worse
Doing what you're told
Totally vicious predatory act
Look for someone weak
Got the keys to unlock hell
Your secret dies with me
Shoot me, stuff me, nail me to the wall
Demonic possession
Transfer the spirits
The obscure rituals continue
Evil prevails
I'm taking over
Put the evil in the sacred circle
And the power will be mine
No one at the scene transposes
Reversed transpossession
Kill the newborn child of Christ
Put and end to all the lies
Demonic possession, transfer the spirits.
The obscure rituals continues
Demonic possession
Transfer the spirits
The obscure rituals continue
Evil prevails
I'm taking over
Put the evil in the sacred circle

And the power will be mine
