

# Suffering

## The War on Drugs

I was here in the world, the world that you gave me every time  
You can say that you're running cuz I can go back on the street  
I'll be here when we both gonna fake it  
We're awake

No more try to hear killing your goal  
Means I can be bigger then the tones  
In the moments of suffering  
Like the feeling that you gave me, like a snowflake though the fire  
I'll be frozen in time but you'll be here  
Suffering

Will you be here suffering?  
Will you be here suffering?  
"Well I hope to be"

---
