

Upstream

[k.d. lang](#)

Straight onto the beating path
Phase down into its aftermath
Kills me to find myself here at last I blame it on my human side
I blame it on the other guy
I blame the stars on the boulevard A perfect body, a perfect smile
The perfect lover impeccably in style I used to be, I'd laugh it off
Now it's just this joke I got
A halo promise in a sinners dream
The punch line is I always swim upstream I blame it on my human side
I blame it on the other guy I used to be, I'd laugh it off
Now it's just this joke I got
A halo promises a sinners dream
The punch line is I always swim upstream, upstream I used to be, I'd laugh it off
Now it's just this joke I got
A halo promises a sinners dream
The punch line is I always swim upstream, upstream
