

# Makin Me Happy

## Elias

I've been lying here one  
Did you sleep last night  
All my doors they came knocking, one to one

I've been searching for something  
Keep you off my mind  
But however you're fucking, one to one

I remember your smile  
When you said you're making me happy, happy  
And no matter what you do  
You're the only one that makes me feel happy, happy

I've been lying here one  
Did you sleep last night  
All my doors they came knocking, one to one  
I've been searching for something  
Keep you off my mind  
But however you're fucking, one to one

I remember your smile  
When you said you're making me happy, happy  
And no matter what you do  
You're the only one that makes me feel happy, happy

You can swallow all the [?]  
Baby if it makes you feel happy, happy

I've been lying here one  
Did you sleep last night  
All my doors they came knocking, one to one  
I've been searching for something  
Keep you off my mind  
But however you're fucking, one to one

I remember your smile  
When you said you're making me happy, happy  
And no matter what you do  
You're the only one that makes me feel happy, happy
