## Farewell

## **Kamelot**

Winter's close and the mountain high I'll start my journey now On this planet, we call Earth, we belong I want to know, why did God make me feel There is more to be answered Maybe God cannot remedy, our souls if He tried I seek peace of mind at least And to know I did my best I will pray for those I have loved I must take your farewell Carried by destiny, bound to obey I must take your farewell Trails of discovery, lead me an ocean away No one holds the only truth in his hand So who am I to defy even God In quest for a reason There's no time to waste, I'm afraid I must take your farewell Carried by destiny, bound to obey I must take your farewell Trails of discovery, lead me an ocean away, so far away When the tide is high I won't dwell or wait no longer
