

# And So It Goes

## Graham Nash

I'm the oil upon the water  
I'm the lava in the flow  
Resting like a rock beside the seaside  
I'm the son and you're the daughter  
Of the stranger that we know  
Who gets a little stoned beside the wayside Well, there's one thing to try  
Everybody knows  
Music gets you high  
Everybody grows and so it goes You're the lips that make the laughter  
You're the sunshine in the snow  
Shining out on everything you feel  
You're the bird that dropped the berry  
On the island far below  
Finding out that everything is real Well, there's one thing to try  
Everybody knows  
Music gets you high  
Everybody grows and so it goes We are loved and we are lonely  
We are many, we are few  
Make it out of love and build a dream  
We are hoboes, we are holy  
We are me and we are you  
Can't it be as easy as it seems? Well, there's one thing to try  
Everybody knows  
Music gets you high  
Everybody grows and so it goes
