

# BLUE

## ZAYN

In the clouds where the angels sing  
In your eyes, where I wanna be  
And her smile is all I see  
She knows I need her loving  
She knows I need her touching  
She plays with my heart and emotion  
I give her my love and devotion  
She gave me her thought and a notion  
I need her body  
It needs me too

I need somebody to  
Love me blue

I've been doing it wrong for too long  
I said I've been at it wrong for too long  
I've been doing it wrong for too long

In the clouds where the angels sing  
It's her smile, yeah it's all I see  
In her eyes, where I wanna be  
She knows I need her loving  
She knows I need her touching  
She plays with my heart and emotion  
I give her my love and devotion  
She gave me her thought and a notion  
I need her body  
She needs me too

I need somebody to love  
Love me blue  
Love me blue  
Love me blue  
Love me blue
