What Now?

Reset

Woke up in someone else bed
He can't remember what she said
So he ran away again so what now
He's got hair that's failing off his head
The teacher really wants him dead
But he never really cared about that
I don't think anyone will ever understand
Mom and dad won't even hold his hand
He's got a problem with authority
So what now
I can see tonight she's all alone
He really wants to take her home
And he really hoped that she would like that
He can't get a number for the phone
He doesn't even have a home
But he never really cared about that
I don't think that anyone will ever understand
Mom and dad won't even hold his hand
He's got a problem with authority
.....LONG PAUSE.....
Woke up in someone else bed
He can't remember what she said
So he ran away again so what now
He's got hair that's failing off his head
The teacher really wants him dead
But he never really cared about that
I don't think anyone will ever understand
Mom and dad won't even hold his hand
He's got a problem with authority
So what now
