

# Daniel

## Twin Sister

Saw you making eyes at me  
Hotels are loneliest  
In little miss New Jersey  
Back to work and on your feet And oh, you're so far away  
And God knows when  
I'd ever get the chance  
To touch your hands You know we'll never date  
Let alone be friends  
You're so far away  
It hurts so bad Softly walk away from me  
Goodbyes are loneliest  
When you know we'll never meet  
Face to face or feet to feet And oh, you're so far away  
And God knows when  
I'd ever get the chance  
To touch your hands You know we'll never date  
Let alone be friends  
You're so far away  
It hurts so bad It hurts so bad  
It hurts so bad
