

# Beyond the Great Divide

**Emmylou Harris**

There'll be greener pastures  
Across that border line  
We'll see new horizons, my darlin'  
Far beyond the great divide Pools of clear blue waters  
Star light in the sky  
You'll be mine forever my darlin'  
Far beyond the great divide Somewhere in the distance  
Northern lights will shine  
You'll be there beside me my darlin'  
Far beyond the great divide  
You'll be mine forever my darlin'  
Far beyond the great divide
