Superstylin'

Groove Armada

Enta in de dance, plug it in and we begin

Crowd up in de center, they watch be dibidim

Watch de way we drop it in a mixed timin'

Rise and amplifying when we come in wit de swingJust follow in de back and naturally harmonizing

Climb into position wit syncronised things

Live from out de ghetto we maximizing

Sound o de groove armada we superstylin'

Superstylin', we superstylin'Sometimes can you feel the pressure does unwind

Sometimes

(Here we go, here we go)

Sometimes in thru the day and thru the night

Sometimes

(Here we go, here we go)
