

I Like It Already

David Lee Murphy

She slid across the front seat and said, "Come on baby lets go"
She rolled down the windows and cranked up the radio
She said, "When I'm with you honey I feel defenseless"
Oh and that kinda talk can drive a man senseless
I'm just doin my best to keep my heart steady
I think I'm in love and I like it already With one hand on the wheel and the other one losin control
I was tickin like a time bomb tryin to keep the car on the road
Yeah she had my mind in such a sweet commotion
I was gettin all kinds of serious notions
I'm just doin my best keep my heart steady
I think I'm in love and I like it already Yeah I like it already (I like it already)
Oh I like it a lot (I like it a lot)
I like it already (I like it already)
Oh and I don't want it to stop Oh something real good is happenin to me
And I'm beginnin to see the possibilities
Hey from here on out the skys the limit
she's got me holdin on from minute to minute
I'm just doin my best to keep my heart steady
I think I'm in love and I like it already Yeah I like it already (I like it already)
Oh I like it a lot (I like it a lot)
I like it already (I like it already)
Oh and I don't want it to stop I'm just doin my best to keep my heart steady
I think I'm in love and I like it already
Hey I'm just doin my best to keep my heart steady
I think I'm in love and I like it already
Hey I'm a likin it
Hey I like it already
Yeah I like it already
Hey I like it already
Hey yes I do
